

Effective
inclusion services require
educator-caregivers' involvement at *each* step:
identifying need, partnering with families,
and providing individualized services.

What do we need?

Identifying need
What do you need to ...

Support you in identifying need?

Work with family and child while learning more about needs and working toward services (without burning out)?

Partnering with families
What do you need to ...

Provide more information to families about GGRC & SFUSD processes, and support transitions?

Understand family experience to support and improve process?

Resources
What do you need to ...

Access and develop effective collaborations with Specialists?

Continue services outlined in IEP/IFSP?

Build your capacity to serve children with diverse needs?

Onsite capacity
What do you need to ...

Further define what inclusion looks like at ECE sites. Address elements like:

- Class size
- Ratios
- Instructional design
- Onsite specialization
